StorageVault Canada Inc.

Notes to the Interim Consolidated Financial Statements

For the Three Months Ended March 31, 2026 and 2025

(Unaudited)

1. Description of Business

StorageVault Canada Inc. (the "Corporation") is incorporated under the Business Corporations Act of Alberta and is domiciled in Canada. Its shares are publicly traded on the Toronto Stock Exchange ("Exchange"). The address of its registered office is Suite 1000, 250 2nd Street SW, Calgary, AB, T2P 0C1.

The Corporation's primary business is owning, managing and renting self storage and portable storage space to individual and commercial customers. The Corporation also stores, shreds, and manages documents and records for customers.

2. Basis of Presentation

These interim consolidated financial statements and the notes thereto present the Corporation's financial results of operations and financial position in accordance with IFRS[®] Accounting Standards as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee. They have been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting" and accordingly these interim consolidated financial statements do not include all the necessary annual disclosures in accordance with IFRS. These interim consolidated financial statements as at and for the three months ended March 31, 2026, were authorized for issuance by the Board of Directors of the Corporation on April 22, 2026.

These interim consolidated financial statements should be read in conjunction with the Corporation's annual audited consolidated financial statements for the year ended December 31, 2025.

The interim consolidated financial statements have been prepared under the historical cost method, except for the revaluation of certain financial assets and financial liabilities to fair value. The interim consolidated financial statements were prepared on a going concern basis, and are presented in Canadian dollars, which is the Corporation's and its wholly owned subsidiary's functional currency.

3. Material Accounting Policies

Basis of Consolidation

The interim consolidated financial statements include the accounts of StorageVault Canada Inc. and its wholly owned subsidiary 507399 N.W.T. Ltd., both of which are headquartered in Toronto, Ontario. The financial statements for the consolidated entity are prepared for the same reporting period as StorageVault Canada Inc. using consistent accounting policies. All intercompany transactions and balances have been eliminated in the preparation of these interim consolidated financial statements.

The accounting policies and methods of computation followed in the preparation of these interim consolidated financial statements are consistent with those used in the preparation of the Corporation's annual audited consolidated financial statements for the year ended December 31, 2025.

The bank prime rate at March 31, 2026 was 4.45% (December 31, 2025 – 4.45%).

Mortgages are secured by a first mortgage charge on the real estate and equipment of the Corporation, general security agreements covering all assets of the Corporation, general assignment of rents and leases, and assignments of insurance coverage over all assets of the Corporation. The Corporation must maintain certain financial ratios to comply with the facilities. These covenants include debt service coverage ratios, a fixed charge coverage ratio, a tangible net worth ratio, and a loan to value ratio. As of March 31, 2026, the Corporation is in compliance with all covenants.

The deferred financing costs consist of fees and costs incurred to obtain the related mortgage financing, less accumulated amortization.

The contractual principal repayments on mortgages and lines of credit in each of the next five years are estimated as follows:

Year of Debt Maturity	Mortgages Payable	Weighted Average Interest Rate	Lines of Credit	Weighted Average Interest Rate	Total Debt	Weighted Average Interest Rate
2026/27	\$ 91,590,208	4.19%	\$ 32,675,050	5.16%	\$ 124,265,258	4.44%

The Corporation entered into interest rate swap contracts to fix the interest rate on \$1.1 billion of debt at a weighted average rate of 4.72%. On \$57.2 million of this debt, the banks entered into interest rate swap cancellation agreements, allowing them to cancel the original swap agreements between April 12, 2027 and April 22, 2027.

During the three months ended March 31, 2026, the Corporation recognized an unrealized gain on interest rate swaps of \$0.2 million (March 31, 2025 – loss of \$1.0 million). These derivative financial instruments mature between February 2027 and January 2030.

8. Debentures*2020 Hybrid Debentures*

On July 20, 2020, \$75 million of unsecured senior hybrid debentures were issued at a price of \$1,000 per debenture with a term of sixty-six months, due January 31, 2026. These debentures bore a fixed interest rate of 5.75% per annum, payable semi-annually in arrears on January 31 and July 31 of each year, commencing January 31, 2021. The intended use of the net proceeds of the debentures was to pay down the credit facility and fund anticipated capital expenditures.

Note 8 – Continued

The debentures were recorded as a financial instrument. The debentures were recorded at a fair value of \$75 million net of deferred financing costs of \$3.5 million. Each embedded feature was evaluated separately and it was determined that the economic and risk characteristics were closely related to the host contract and therefore were not accounted for as separate financial instruments. On February 2, 2026, being the first business day following the maturity date of January 31, 2026, the debentures were repaid in full in cash.

2021 Hybrid Debentures

On July 19, 2021, \$57.5 million of unsecured senior hybrid debentures were issued at a price of \$1,000 per debenture with a term of sixty-six months, due September 30, 2026. These debentures bear a fixed interest rate of 5.5% per annum, payable semi-annually in arrears on March 31 and September 30 of each year, commencing September 30, 2021. The intended use of the net proceeds of the debentures is to fund potential future opportunities and for general corporate purposes.

On and after September 30, 2024 and prior to September 30, 2025, the debentures will be redeemable in whole or in part from time to time at the Corporation's option at a redemption price equal to 102.75% of the principal amount of the debentures redeemed plus accrued and unpaid interest, if any, up to but excluding the date set for redemption. On and after September 30, 2025 and prior to the maturity date, the debentures will be redeemable, in whole or in part, from time to time at the Corporation's option at par plus accrued and unpaid interest, if any, up to but excluding the date set for redemption.

On redemption or at maturity on September 30, 2026, the Corporation may elect to, in whole or part, convert the debentures into freely tradable common shares. In such event, payment will be satisfied by delivering for each \$1,000 due, that number of freely tradable shares obtained by dividing \$1,000 by 95% of the current market price on the date fixed for redemption or maturity, as the case may be. Any accrued and unpaid interest will be paid in cash.

The debentures were recorded as a financial instrument. The debentures were recorded at a fair value of \$57.5 million net of deferred financing costs of \$2.5 million. Each embedded feature was evaluated separately and it was determined that the economic and risk characteristics are closely related to the host contract and therefore were not accounted for as separate financial instruments.

2023 Convertible Debentures

On January 9, 2023, \$150 million of convertible senior unsecured debentures were issued at a price of \$1,000 per debenture with a term of sixty-six months, due March 31, 2028. These debentures bear a fixed interest rate of 5% per annum, payable semi-annually in arrears on March 31 and September 30 of each year, commencing March 31, 2023. The intended use of the net proceeds of the debentures is to fund potential future opportunities and for general corporate purposes.

On and after March 31, 2026 and prior to March 31, 2027, the debentures will be redeemable in whole or in part from time to time by the Corporation at a redemption price equal to 125% of the principal amount of the debentures redeemed plus accrued and unpaid interest, if any, up to but excluding the date set for redemption. On and after March 31, 2027 and prior to the maturity date, the debentures will be redeemable, in whole or in part, from time to time at the Corporation's option at par plus accrued and unpaid interest, if any, up to but excluding the date set for redemption.

On redemption or at maturity on March 31, 2028, the debentures will be convertible into freely tradeable common shares of the Corporation at the option of the holder at a conversion price of \$8.65 per share.

The debentures were recorded as a financial instrument at a fair value of \$150 million, net of deferred financing costs of \$6.0 million, an equity component of \$18.2 million, and a deferred tax liability of \$4.7 million. The equity component of

the convertible debentures relates to the portion of the debentures' value that is attributed to the conversion option, which allows the holder to convert the debentures into common shares of the Corporation.

2025 Hybrid Debentures

On November 12, 2025, \$57.5 million of unsecured senior hybrid debentures were issued at a price of \$1,000 per debenture with a term of sixty-one months, due December 31, 2030. These debentures bear a fixed interest rate of 5.6% per annum, payable semi-annually in arrears on June 30 and December 31 of each year, commencing June 30, 2026. The intended use of the net proceeds of the debentures is to pay down bank debt, which may be subsequently re-drawn to fund the redemption of the 5.75% listed debentures due January 31, 2026, fund future acquisitions and for general corporate purposes.

On and after December 31, 2028 and prior to December 31, 2029, the debentures will be redeemable in whole or in part from time to time at the Corporation's option at a redemption price equal to 102.8% of the principal amount of the debentures redeemed plus accrued and unpaid interest, if any, up to but excluding the date set for redemption. On and after December 31, 2029 and prior to the maturity date, the debentures will be redeemable, in whole or in part, from time to time at the Corporation's option at par plus accrued and unpaid interest, if any, up to but excluding the date set for redemption.

On redemption or at maturity on December 31, 2030, the Corporation may elect to, in whole or part, convert the debentures into freely tradable common shares. In such event, payment will be satisfied by delivering for each \$1,000 due, that number of freely tradable shares obtained by dividing \$1,000 by 95% of the current market price on the date fixed for redemption or maturity, as the case may be. Any accrued and unpaid interest will be paid in cash.

The debentures were recorded as a financial instrument. The debentures were recorded at a fair value of \$57.5 million net of deferred financing costs of \$2.7 million. Each embedded feature was evaluated separately and it was determined that the economic and risk characteristics are closely related to the host contract and therefore were not accounted for as separate financial instruments.

The debentures are subsequently measured at amortized cost using the effective interest method over the life of the debentures. The balance of the debentures is:

The Corporation will, from time to time, issue common shares to the public or to vendors to fund the purchase of storage assets. Future issuances will be dependent upon financing needs, acquisition opportunities, expansion plans, equity market conditions and transaction pricing.

The Corporation may from time to time purchase its common shares in accordance with the rules prescribed by the Exchange or regulatory policies.

Dividend Reinvestment Plan

Represents common shares issued under the Corporation's dividend reinvestment plan ("DRIP") for holders of common shares. Under the terms of the DRIP, eligible registered holders of a minimum of 10,000 Common Shares may elect to automatically reinvest their cash dividends, payable in respect to the common shares, to acquire additional common shares, which will be issued from treasury or purchased on the open market. The Corporation may initially issue up to 5,000,000 common shares under the DRIP, which may be increased upon Board of Directors approval, acceptance of the increase by the Exchange, and upon public disclosure of the increase.

Equity Incentive Plan

Under the Corporation's Equity Incentive Plan passed on May 30, 2018 (the "Plan"), directors, employees and consultants are eligible to receive awards, in the form of Restricted Share Units ("RSUs"), Deferred Share Units ("DSUs") and Named Executive Officer Restricted Share Units ("Neo RSUs"), as and when granted by the Board, at its sole discretion. The maximum number of awards that may be issued under the Plan is 17,545,677. The maximum number of shares that may be reserved for issuance under the Plan, together with any of the Corporation's other stock based compensation arrangements, may not exceed 10% of the issued shares of the Corporation.

(Unaudited)

Note 9 – Continued

The RSUs and DSUs granted vest in equal annual amounts over three years. The Neo RSUs vest three years after the date of grant. RSUs, DSUs and Neo RSUs are entitled to be credited with dividend equivalents in the form of additional RSUs, DSUs and Neo RSUs, respectively.

With certain exceptions, the Plan provides that (i) the maximum number of awards that may be granted to any one participant together with any other stock based compensation arrangements, in any 12 month period, may not exceed 5% of the issued shares, and, in the case of any consultant, may not exceed 2% of the issued shares; and (ii) the total value of all securities that may be issued to any non-employee director under all of the Corporation's security based compensation arrangements may not exceed \$150,000 per annum.

During the three months ended March 31, 2026, the Corporation issued nil common shares at a value of \$nil under the Plan (December 31, 2025 – 60,816 common shares at a value of \$248,493). A total of 406,248 common shares at a value of \$2,105,068 were outstanding at March 31, 2026 (December 31, 2025 – 406,248 common shares at a value of \$2,105,068).

At March 31, 2026, 100% of the combined DSU and RSU exposures were economically hedged. Hedge accounting is not applied for the DSU/RSU hedging program.

The Corporation entered into Total Return Swaps ("TRS") as economic hedges of the Corporation's DSUs and RSUs. Under the terms of the TRS, a bank has the right to purchase the Corporation's shares in the marketplace as a hedge against the returns in the TRS. At March 31, 2026, 9,585,472 TRS were outstanding at a value of (\$2,388,099) (December 31, 2025 – 11,119,028 TRS were outstanding at a value of \$2,102,870).

During the three months ended March 31, 2026, the Corporation recognized a realized and unrealized loss on TRS of \$1,747,845 (December 31, 2025 – gain of \$4,861,940). These derivative financial instruments mature between August 2026 and September 2028.

Dividends

A cash dividend of \$0.003006 per common share was declared on March 13, 2026, and paid to shareholders of record on March 31, 2026.

10. Financial Risk Management and Fair Value

The Corporation is required to disclose certain information concerning its financial instruments. The fair values of the Corporation's cash and short term deposits, accounts receivable, and accounts payable and accrued liabilities approximate their carrying amount due to the relatively short periods to maturity of these financial instruments. The fair value of the Corporation's debt obligations is estimated based on discounted future cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks. Such fair value estimates are not necessarily indicative of the amounts the Corporation might pay or receive in actual market transactions.

IFRS establishes a three tier fair value hierarchy to reflect the significance of the inputs used in measuring the fair value of the Corporation's financial instruments. The three levels are:

StorageVault Canada Inc.**Notes to the Interim Consolidated Financial Statements**

For the Three Months Ended March 31, 2026 and 2025

*(Unaudited)***Note 10 – Continued**

Level 1 – This level includes assets and liabilities measured at fair market value based on unadjusted quoted prices for identical assets and liabilities in active markets that the Corporation can access on the measurement date.

Level 2 – This level includes measurements based on directly or indirectly observable inputs other than quoted prices included in Level 1. Financial instruments in this category are measured using valuation models or other standard valuation techniques that rely on observable market inputs.

Level 3 – The measurements used in this level rest on inputs that are unobservable, unavailable, or whose observable inputs do not justify the largest part of the fair value instrument.

The fair value of financial instruments was as follows:

	Fair Value Hierarchy	March 31, 2026		December 31, 2025	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial instruments:					
Debt - at amortized cost	Level 2	(806,316,727)	(806,877,822)	(689,104,591)	(696,874,312)
Debt - at FVTPL	Level 2	(1,100,838,854)	(1,100,838,854)	(1,074,568,201)	(1,074,568,201)
Interest rate swaps	Level 2	(1,551,091)	(1,551,091)	(5,560,841)	(5,560,841)
Derivative assets (liabilities)	Level 2	(2,891,600)	(2,891,600)	1,416,099	1,416,099

Financial instruments may expose the Corporation to a number of financial risks including interest rate risk, credit risk and liquidity risk.

- a) Interest rate risk – Interest rate risk arises from changes in market interest rates that may affect the fair value of future cash flows from the Corporation’s financial assets or liabilities. Interest rate risk may be partially mitigated by holding both fixed and floating rate debt, or by staggering the maturities of fixed rate debt. The Corporation is exposed to interest rate risk primarily relating to its long term debt. The Corporation will manage interest rate risk by utilizing fixed interest rates on its mortgages where possible, entering into interest rate swap contracts, staggering maturities over a number of years to mitigate exposure to any single year, and by attempting to ensure access to diverse sources of funding. There is interest rate risk associated with variable rate mortgages and lines of credit as interest expense is impacted by changes in the prime rate. The impact on the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss) if interest rates on variable rate debt had been 1% higher or lower for the three months ended March 31, 2026 would have been approximately \$566,587 (March 31, 2025 - \$316,912).
- b) Credit risk – Credit risk arises from the possibility that customers may experience financial difficulty and be unable to fulfill their financial obligations to the Corporation. The risk of incurring bad debts often arises if storage customers relocate and cannot be found to enforce payment, or if storage customers abandon their possessions. The extent of bad debts can be mitigated by quickly following up on any unpaid amounts shortly after the due date, enforcing late fees, denying access to any customers with delinquent accounts, and ultimately seizing the possessions of the customer. Additionally, the Corporation typically rents to numerous customers, each of which constitutes significantly less than 1% of the Corporation’s monthly revenue. This diversification in the customer base reduces credit risk from any given tenant.

The Corporation has \$916,455 of receivables from related parties at March 31, 2026 (December 31, 2025 - \$774,372). Management believes there is low credit risk associated with related party balances due to the nature of the relationships and the historical loss rates.

Note 10 – Continued

Change in the Corporation's allowance for expected credit losses is as follows:

Balance December 31, 2024	\$ 221,131
Charges or adjustments during the period	<u>208,828</u>
Balance December 31, 2025	429,959
Charges or adjustments during the period	<u>18,151</u>
Balance March 31, 2026	<u>\$ 448,110</u>

The creation and release of the allowance for expected credit losses has been included in operating costs in the Consolidated Statements of Income (Loss) and Comprehensive Income (Loss). Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

- c) Liquidity risk – Liquidity risk is the risk that the Corporation will be unable to meet its financial obligations as they fall due. The Corporation manages liquidity risk through cash flow forecasting and regular monitoring of cash requirements, including anticipated investing and financing activities. Typically, the Corporation ensures that it has sufficient cash or liquid investments available to meet expected operating expenses for a period of 30 days, excluding the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. For the foreseeable future, the Corporation anticipates that cash flows from operations, working capital, and other sources of financing will be sufficient to meet its operating requirements, debt repayment obligations and will provide sufficient funding for anticipated capital expenditures. It is the Corporation's intention to renew any debt coming due in the next fiscal year. The maturities of long term financial liabilities are summarized in Note 7.

Unless otherwise noted, it is management's opinion that the Corporation is not exposed to significant currency risk.

11. Related Party Transactions

The Corporation holds a Master Franchise Agreement from Canadian PUPS Franchises Inc. ("CPFI") which provides the Corporation with the exclusive Canadian franchise rights for the development and operation of portable storage throughout Canada. CPFI is a corporation related to Iqbal Khan and Steven Scott who are directors of the Corporation. The Corporation pays a monthly royalty of 3.5% on the gross sales. During the three months ended March 31, 2026, the Corporation paid \$65,010 (March 31, 2025 - \$68,285) for royalties and \$1,349,310 (March 31, 2025 - \$1,499,551) for storage containers and other equipment under the Master Franchise Agreement. Included in accounts payable and accrued liabilities, relating to the previously noted transactions, at March 31, 2026 was \$741,759 (December 31, 2025 - \$55,534) payable to CPFI.

The Corporation has management agreements with Access Self Storage Inc. and related companies ("Access Group"). These companies are related to Iqbal Khan and Steven Scott who are directors of the Corporation. The Corporation invoices the Access Group for management fees as well as additional services it provides as part of the management agreements. The Access Group will also invoice the Corporation for construction, maintenance and other services related to its day-to-day operations. During the three months ended March 31, 2026, the Corporation received \$1,333,760 (March 31, 2025 - \$1,215,780) in payments and reimbursements related to the management agreements. During the three months ended March 31, 2026, the Corporation also incurred \$22,029,788 (March 31, 2025 - \$14,485,080) in expenditures related to construction, maintenance and other services related to its day-to-day operations. Included in accounts payable and accrued liabilities as at March 31, 2026 was \$2,397,618 (December 31, 2025 - \$710,244) payable to the Access Group. Included in accounts receivable as at March 31, 2026 was \$916,455 (December 31, 2025 - \$774,372) receivable from the Access Group.

Note 11 – Continued

Key management personnel are those persons having authority and responsibility for planning, directly and indirectly directing, and controlling the activities of the Corporation. Key management personnel are defined as officers and Directors of the Corporation.

The remuneration of key management personnel for employment services rendered are as follows:

	<u>March 31, 2026</u>	<u>March 31, 2025</u>
Wages, management fees, bonuses and directors fees	\$ 842,292	\$ 700,017

12. Capital Risk Management

The Corporation's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits to other stakeholders. The Corporation defines capital as shareholders' equity excluding contributed surplus and long term debt. The Corporation manages its capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Corporation may attempt to issue new shares, issue new debt, acquire or dispose of assets, and adjust the amount of cash and short term deposits. The Board of Directors does not establish a quantitative return on capital criteria, but rather promote sustainable year over year growth.

The Corporation reviews and assesses its capital structure on an ongoing basis. The Corporation determines the appropriate mortgage debt to be placed on properties at the time a particular property is acquired or when an existing mortgage financing matures. Consideration is given to various factors including, but not limited to: interest rates, financing costs, the term of the mortgage and the strength of cash flow arising from the underlying asset. Mortgage debt is usually only secured by the underlying asset. The Corporation monitors its capital using a debt to fair value ratio. Except for the debt covenants described in Note 7, the Corporation is not subject to any externally imposed capital requirements. There have been no changes to how the Corporation manages its capital in the current period.

13. Segmented Information

The Corporation operates three reportable business segments. Each segment is a component of the Corporation for which separate discrete financial information is available for evaluation by the chief operating decision makers of the Corporation.

- Self Storage – involves customers leasing space at the Corporation's properties for short or long term storage. Self storage also includes customers utilizing space for inventory storage for last mile delivery, small commercial operations, and vehicles.
- Portable Storage – involves delivering a portable storage unit to the customer. The customer can opt to keep the portable storage unit at their location or have it moved to another location for further storage.
- Management Division – involves revenues generated from the management of stores owned by third parties.

The Corporation evaluates performance and allocates resources based on earnings before interest, taxes, depreciation and amortization, and stock based compensation. Corporate costs are not allocated to the segments and are shown separately.

14. Lease Liabilities

The Corporation leases buildings and land in British Columbia, Alberta, Manitoba, Ontario, Quebec, and the North West Territories. The leases expire between 2026 and 2075, with the leases expiring in 2026 and 2027 having up to 5 years and 20 years of renewals, respectively, which are expected to be exercised by the Corporation.

The lease liabilities are measured at the present value of the lease payments that are outstanding at the balance sheet date. Lease payments are apportioned between interest expense and a reduction of the lease liability using the Corporation's incremental borrowing rate to achieve a constant rate of interest on the remaining balances of the liability.

For the three months ended March 31, 2026, the Corporation recognized \$1,594,272 (March 31, 2025 - \$1,142,597) in interest expense related to its lease liabilities.
