INDUSTRY OVERVIEW

Industry Overview

- Storage is the top performing real estate asset class in the US over the past 10, 15, 20 and 25 year periods⁽¹⁾ and in Canada over the last 10 years
- Bargaining Power of Suppliers: Very Low – historically almost non-existent
- Demand is driven by population growth, change of circumstances and smaller living and work spaces - the 6 D's (density, disaster, dislocation, divorce, downsizing and death):
 - Examples: moving, intensification, renovation, insurance claims, business incubation, etc.
- The Canadian storage market is estimated to be 90 million sq ft across 3,000 stores, the US market is estimated to be over 2 billion sq ft across over 51,000 stores
- The top 10 Canadian operators own less than 15% of these stores (the industry is highly fragmented providing acquisition opportunities)

Industry Dynamics

The superior performance of the storage industry has been the result of the following factors:

- Bargaining Power of Buyers: Very Low – small \$ purchase, high switching costs
- Bargaining Power of Suppliers: Very Low – historically almost non-existent
- Intensity of Rivalry: Low – localized competition and small transaction size
- Threat of Substitutes: Low – limited options
- Threat of New Entrants: Low – difficulty in getting zoning approvals and significant increase in development charges (big positive for existing owners) and cost inflation

Why will this superior performance continue?

- Canadian population continues to grow – it is now projected to be 100 million by 2100
- Average condo/apartment size continues to shrink
- Canadians continue to acquire more “stuff”
- The USA has an average of 8.3 sq ft of storage per capita versus an estimated 2.5 sq ft per capita in Canada (pent up demand)
- Weighted average inherent cap rate of the US Public REITs is 4%
- In 2000, 1 in 20 Americans had used storage in the last 12 months. In 2015, this number had improved to over 1 in 10
- In 2015, 1 in 20 Canadians had used storage in the last 12 months suggesting that as Canadians become more aware of the product, demand and utilization will increase

Consistent Performance

Self storage has delivered the highest ROI and lowest volatility of any REIT sector

Since 1994, self storage REIT returns have outperformed all other equity REIT sectors while experiencing the least volatility

- The industry is expected to continue to generate substantial NOI growth
- Savings expected through improved scale, new technology and centralized infrastructure

Five Forces Driving Self Storage	Impact
Competitive Rivalry	Historically Favourable – geographically limited
Customer Bargaining Power	Very Favourable – not price driven
Threat of Substitute Products	Favourable – Very few cost effective options
Supplier Bargaining Power	Neutral – Limited, but increasing
Threat of New Entrants	Neutral – Limited, but increasing entry barriers

Note: Data sourced from NAREIT published data. Volatility ratio defined as the standard deviation of return divided by return.

Canadian Population Growth 2010-2100

Canadian population projected to grow to 100M by 2100

Corporate Governance - **Acquisitions**

- SVI purchases assets from related parties, in particular, from Access Storage. To govern such potential related party transactions the Corporation has established an Acquisition Committee and developed an Acquisition Committee Mandate
- The Acquisition Committee is comprised of six voting members, four members being independently appointed and independent of management. Acquisition Committee members who are deemed to be in a conflict of interest position with respect to related party transactions are required to abstain from voting
- The Acquisition Committee Mandate is to review, evaluate and approve the terms of all acquisition transactions proposed in the context of the current strategic direction of the Corporation. In particular, and with respect to all related party transactions, the Acquisition Committee has the authority to appoint appraisers, environmental consultants, and professional advisors to evaluate and report to the Acquisition Committee on the suitability of such transactions. Thereafter, the Acquisition Committee provides its recommendation as to whether the Board of Directors should approve an acquisition
- The Board of Directors must accept the Acquisition Committee's recommendation on any related party transaction
- The Committee and Access Storage are governed by a formula for evaluating acquisition opportunities:
 - acquisitions that have an average occupancy greater than 65% or are more than 65% developed are opportunities to be pursued by StorageVault
 - opportunities to be pursued by StorageVault acquisitions that have an average occupancy less than 65% or are less than 65% developed are opportunities to be pursued by Access Storage

Such rights of rescission and damages are subject to certain limitations including the following: (a) in an action for damages, a defendant is not liable for all or any part of the damages that it proves do not represent the depreciation in value of the securities as a result of the Misrepresentation; and (b) the amount recoverable shall not exceed the price at which the securities were offered under the offering memorandum.
